

Prefix (Cumulative) Average

	0	1	2	3	4	5	6	7
S =	4	6	3	6	3	1	6	5

A is the list we want to compute the prefix average for.

	0	1	2	3	4	5	6	7
A =								

S is the list we want to store the prefix average in.

S =

0	1	2	3	4	5	6	7
4	6	3	6	3	1	6	5

Compute Average

$$A[0] = \frac{4}{1} = 4$$

A =

0	1	2	3	4	5	6	7
4							

S =

0	1	2	3	4	5	6	7
4	6	3	6	3	1	6	5

Compute Average

$$A[1] = \frac{4 + 6}{2} = 5$$

A =

0	1	2	3	4	5	6	7
4	5						

S =

0	1	2	3	4	5	6	7
4	6	3	6	3	1	6	5

Compute Average

$$A[2] = \frac{4 + 6 + 3}{3} = 4.33$$

A =

0	1	2	3	4	5	6	7
4	5	4.33					

	0	1	2	3	4	5	6	7
S =	4	6	3	6	3	1	6	5

Compute Average

$$A[3] = \frac{4 + 6 + 3 + 6}{4} = 4.75$$

	0	1	2	3	4	5	6	7
A =	4	5	4.33	4.75				

0	1	2	3	4	5	6	7
4	6	3	6	3	1	6	5

0	1	2	3	4	5	6	7
4	5	4.33	4.75	4.4	3.83	4.14	4.25
