

Ioannis Tsioulis

i.tsioulis@mc-class.gr giannis00.github.io Athens, Greece giannis00

Profile

PhD Candidate in Deep Learning (AUTH) · Accredited Lecturer (University of Derby, UK)

PhD candidate in Deep Learning at AUTH, and Accredited Lecturer at Mediterranean College, Athens (School of Computing), an accredited partner of the University of Derby (UK), teaching University of Derby AI and Data Science modules. Research spans applied deep learning, medical AI, deep learning in physics & astronomy, and AI & blockchain.

Education

PhD **Aristotle University of Thessaloniki (AUTH)**, Deep Learning — Thessaloniki, Greece
- In progress.

MSc **University of Piraeus**, Cybersecurity and Data Science — Piraeus, Greece, 2023
- Awarded a merit-based scholarship.
- Thesis: Rapid calculation of the signal-to-noise ratio of gravitational-wave sources using artificial neural networks (2023). dione.lib.unipi.gr

BSc **National and Kapodistrian University of Athens (NKUA)**, Mathematics — Athens, Greece

Experience

Mediterranean College, Athens, School of Computing, Accredited Lecturer (University of Derby, UK) — Athens, Greece, Oct 2024 – present
- Teaching University of Derby UG and PG modules in Artificial Intelligence and Data Science.
- Supervising BSc and MSc dissertations on applied AI.
- Leading the SuiHub Athens / Mediterranean College applied-research collaboration (AI & blockchain).

Research Interests

Areas: Applied Deep Learning; Medical AI & Computer-Aided Diagnosis; Deep Learning in Physics & Astronomy; AI & Blockchain Applications

Publications

Human-AI Collaborative Frameworks for Alzheimer's Staging: Evaluating Data Requirements for Augmented Clinical Decision Support — 2026
Hryb, A., Tsioulis, I., Papadaki, M., Tsoutsi, N.-M., Nassi, M.
HAICAI 2026, Springer LNNS (accepted, in press)

Conference Presentations & Talks

- Hryb, A., Tsioulis, I., Papadaki, M., Tsoutsi, N.-M., Nassi, M. (2026). Human-AI Collaborative Frameworks for Alzheimer's Staging: Evaluating Data Requirements for Augmented Clinical Decision Support. Oral presentation, HAICAI 2026, University of West Attica, Athens. Conference programme
- Tsioulis, I., Hryb, A., Papadaki, M. (2026). Ταξινόμηση Σταδίων Νόσου Alzheimer από MRI με CNN και Εκτίμηση Απαιτήσεων Δεδομένων. Oral presentation, 52ο Ετήσιο Πανελλήνιο Ιατρικό Συνέδριο, Athens. Book of abstracts, p. 80
- Tsioulis, I. (2023). Machine Learning & Neural Networks for Astronomy. Research poster, 20th Conference on Recent Developments in Gravity (HSRGC), Eugenides Foundation, Athens.
- Tsioulis, I. (2025). AI in Pharmacovigilance: the Intersection of AI and Drug Safety. Guest lecture, School of Medicine, NKUA.

Datasets

- Tsioulis, I., Chaikalis, T., Anastasopoulos, K., Chanoutsos, V. E., Chrysomallis, N., Gubochkin, D. V., Margetis, A., Patrakis, V., Trousas, N., Tsipis, G., Zerkidis, D. (2026). Sui Move Issues: A Labeled Dataset for Smart Contract Error Classification (v1). Zenodo. doi.org/10.5281/zenodo.19682589. Supervised by I. Tsioulis; produced with BSc/MSc students at Mediterranean College in collaboration with SuiHub Athens.

Projects

NiceMove: AI-Powered Move Smart-Contract Linter
VS Code extension that flags Sui Move smart-contract issues locally with a small specialised model, then hands fixes to an AI coding assistant on demand.

- Brought to final form by Vasilis Bakalis as part of his MSc thesis; ~99% accuracy on the classification task in preliminary evaluation, outperforming general-purpose LLMs used out-of-the-box.
- Collaboration: SuiHub Athens / Mysten Labs.

Selected Supervision

MSc — Vasileios Bakalis (2026): *LLM-Based Classification of Move Smart-Contract Issues in the Sui Ecosystem: Dataset Consolidation and Baseline Model Comparison.* MSc in Big Data Analytics, Mediterranean College / University of Derby. Built the curated dataset of ~3,300 labelled Sui Move snippets underpinning NiceMove. PDF

BSc — Vasileios Eirinaios Chanoutsos (2026): *Security Comparison of Smart Contracts in Sui vs. Other Blockchains.* BSc (Hons) Computer Science, Mediterranean College / University of Derby. PDF

BSc — Dimitrios Zerkidis (2026): *AI-Based Code Style Enforcement with Code Llama.* BSc (Hons) Computer Science, Mediterranean College / University of Derby. PDF

Awards

- Merit-based Scholarship, MSc in Cybersecurity and Data Science, University of Piraeus.

Skills

Languages: Python, SQL, C

ML / DL: PyTorch, deep learning, CNNs, transformers, continual learning

Domains: Applied Deep Learning

Military Service

Hellenic Army (2017): Presidential Guard (Evzones), Athens. Compulsory national service, completed
