

Ioannis Tsioulis

PhD Candidate in Deep Learning | Accredited Lecturer, School of Computing

Athens, Greece · ioannis.tsioulis@mc-class.gr · github.com/giannis00

PROFILE

PhD candidate in Deep Learning at the Aristotle University of Thessaloniki (AUTH), developing deep-learning surrogate models for gravitational-wave astrophysics. Accredited Lecturer at Mediterranean College (School of Computing, Athens) since October 2024, teaching undergraduate and postgraduate modules in Artificial Intelligence and Data Science and supervising BSc and MSc dissertations on applied AI.

EDUCATION

PhD Candidate in Deep Learning — Aristotle University of Thessaloniki (AUTH)

In progress · Supervisor: Prof. Nikolaos Stergioulas

- Dissertation: deep-learning surrogate models for gravitational-wave astrophysics.

MSc in Cybersecurity and Data Science — University of Piraeus

Awarded a merit-based scholarship

BSc in Mathematics — National and Kapodistrian University of Athens (NKUA)

ACADEMIC EXPERIENCE

Accredited Lecturer — Mediterranean College, School of Computing, Athens

October 2024 – present

- Teaching UG and PG modules in Artificial Intelligence and Data Science.
- Supervising BSc and MSc dissertations exploring applications of AI across domains.

INDUSTRY COLLABORATION

SuiHub Athens — Mediterranean College (ongoing)

- Leading an applied-research collaboration with SuiHub Athens, the local hub of the Sui blockchain ecosystem.
- Supervising UG/PG theses at the intersection of AI and blockchain, with hands-on training sessions for students.

RESEARCH INTERESTS

Applied Deep Learning · Medical AI & Computer-Aided Diagnosis · Deep Learning in Physics & Astronomy · AI & Blockchain Applications

PEER-REVIEWED PUBLICATIONS

Hryb, A., **Tsioulis, I.**, Papadaki, M., Tsoutsis, N.-M., Nassi, M. (2026). *Human-AI Collaborative Frameworks for Alzheimer's Staging: Evaluating Data Requirements for Augmented Clinical Decision Support*. Proc. International Conference on Human-AI Collaboration & Augmented Intelligence (HAICAI 2026), Springer LNNS. (accepted, in press)

CONFERENCE PRESENTATIONS & TALKS

Tsioulis, I., Hryb, A., Papadaki, M. (2026). *Ταξινόμηση Σταδίων Νόσου Alzheimer από MRI με CNN και Εκτίμηση Απαιτήσεων Δεδομένων*. Oral presentation, 52nd Annual Panhellenic Medical Conference, Athens.

Tsioulis, I. (2024). *Machine Learning & Neural Networks for Astronomy*. Research poster, 20th Conference on Recent Developments in Gravity (HSRGC), Eugenides Foundation, Athens.

Tsioulis, I. (2025). *AI in Pharmacovigilance: the Intersection of AI and Drug Safety*. Guest lecture, School of Medicine, NKUA.

AWARDS

- Merit-based Scholarship, MSc in Cybersecurity and Data Science, University of Piraeus.

TECHNICAL SKILLS

Languages: Python, SQL, C, Move

ML / DL: PyTorch, deep learning, CNNs, transformers, continual learning

Domains: Gravitational-wave astrophysics, medical AI, NLP, blockchain analysis
